

Would you like to be a member of The One Housing Group Berkshire Regional Panel?

The Berkshire Regional Panel is a new resident focused forum that is being launched in November 2008. It will be an important consultation framework that One Housing Group will use to interact with residents to discuss matters such as Equality and Diversity, Quality Housing Services (QHS), Service Improvement and Community issues.

Is this something you would like to be a part of?

This is an opportunity for residents to influence how One Housing Group makes decisions and to respond to issues that affect their community. We are looking for committed members who are willing to participate and work towards improving the quality of services and quality of life for residents.

There are 5 quarterly Panel meetings per year. Membership of the Panel is for two years. Training and attendance allowance will be provided for all those who attend.
